A Sculpture Trail
At Laurelwood Arboretum
Using art to connect people with nature

ABOUT
A Sculpture Trail features representative works from notable artists from around the country. To date, 13 sculptures have been thoughtfully selected and creatively placed by our Curator, Scott A. Broadfoot with consideration to the varied plant life, water, topographical features and natural light in the park; another one, was recently sold and will be replaced by another work this Spring.

Visitors will find that each season and even the varied weather of the northeast provides an interesting backdrop to these unique works of art. All art is for sale; a portion of the proceeds will be donated back to the arboretum and applied to a capital improvement project.

PARTICIPATING ARTISTS
There are 12 talented artists who are participating in this project, each of whom can boast of a rich and diverse portfolio of work, education and experience. The artists range in age, gender, and geographic region. A variety of mediums like natural stone, clay, metals and acrylic have been used to create these unique sculptures.

SPECIAL EVENTS
We are planning a summer concert series...check back on our website, laurelwoodarboretum.org for details as they unfold.
