

Let's Talk about **Spotted Lanternflies**

While Spotted Lanternflies are not harmful to humans, they can greatly impact crops, trees, and quality of life in areas they infest.

Join us to learn more about the Spotted Lanternfly and its damaging effects on the local environment. Learn how to make safe SLF traps to protect ornamental and hardwood trees for the arboretum and your own home.

Workshop will be led by Assistant Horticultural Manager, Kay Gardiner

Tuesday, July 12th, 2022 10 -11:30 a.m.
