Do you have an interest in plants and how to care for them? Are you looking for ways to give back to your community? If so, register today to become a Rutgers Master Gardener!

Each week participants receive online lectures from local and university experts in areas of soil science, entomology, pruning, and many others.

Scan the QR code to be taken directly to the application!

- Growing fruits and vegetables
- Landscape maintenance and design
- Plant and insect identification
- Native plants
